LCM II

Please note that

- (a) the material (book + slides) should be studied carefully;**
- (b) you are expected to use the conventions set out in this module; this applies to both categories and syntactic trees (as I have remarked on various occasions different books may use different nomenclatures);**
- (c) we have never used the label 'simple' with reference to Aspect;**
- (d) the past tense of *tear* is *tore*.**
